CHILSON'S IMPROVED CONE FURNACE.

Patented in the United States, England and France.

Ten Sizes for Brick and Portable Casings.

A GOLD MEDAL was awarded to this celebrated Furnace, at a recent Fair of the Massachusetts Charitable Mechanic Association, and the ONLY GOLD medal ever awarded any Furnace by this Association. It has also received another GOLD MEDAL (first premium), at the Middlesex Mechanics' Exhibition, at Lowell, 1867.

This justly celebrated Furnace, now in such extensive use throughout the country, is now in much greater demand than ever, since the recent improvements have been added.

Once seen it must convince every one that it is the most PERFECT plan for WARMING buildings in this country. Its wonderful heating power, and great economy in FUEL, have been more fully developed the past two years during the high price of fuel than ever before — it having proved in many cases a saving of from forty to fifty per cent over other furnaces.

Thousands of commendations and references have been received from

**Churches, Schools,

THE ARLINGTON COOKING STOVE.

CHILSON'S NEW STOVE. — JUST COMPLETED.

Five minutes' examination of this Stove will prove it to be the CHEAPEST, NEATEST, MOST CONVENIENT and DURABLE, and in EVERY RESPECT the BEST COOKING STOVE ever made. WITHOUT EXCEPTION, the WATER FRONT FIXTURES for heating water, for BATH BOILERS, &c., are the MOST PERFECT EVER INVENTED. Do NOT FAIL to examine this Stove before purchasing elsewhere.

A VARIETY OF SIZES, WITH or WITHOUT Extension Tops, Reservoirs. Hot Closets, &c., &c., for HARD or SOFT COAL, or WOOD, kept constantly on hand.

CHILSON'S PATENT Elevated, Double-Oven COOKING RANGE

HAS BEEN REMODELLED AND GREATLY IMPROVED.

This Celebrated Range is universally acknowledged to be the most complete and perfect Kitchen Range in America.

No housekeeper, who would enjoy the comforts of a really perfect Kitchen Range, should fail to examine this before purchasing. Sizes adapted for dwellings, hotels, &c. with or without water-backs, hot closets, and hot-air fixtures for heating additional rooms.

It excels all others —

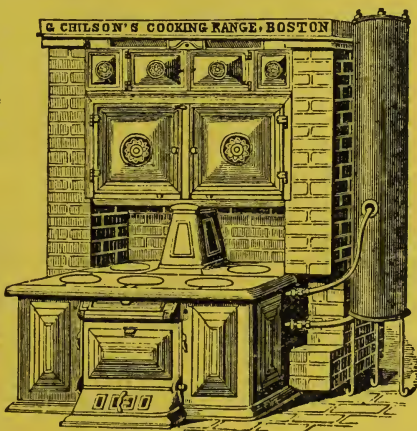

1st — In its entirely new principle for circulating the heat around either oven separately, or both ovens, as desired.

2d — In its heavy fine castings and thorough workmanship.

3d — In its GREAT ECONOMY OF FUEL.

4th — In its quick and even baking ovens.

5th — In its self regulating flues, without the usual complication of dampers; and finally, in its general beauty of design, durability, &c.

ALSO,

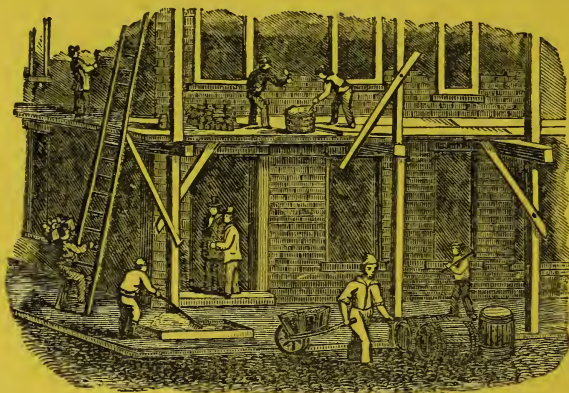

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, &c.

PREFACE.

WE present this the second number of our SOMERVILLE, ARLINGTON, and BELMONT DIRECTORY, to the public for their use, and, we trust, their approval. Since our last issue two years ago, Somerville has made rapid strides, both in population and business. During the year 1870, nearly *four hundred* buildings were erected, and the present year bids fair to add even a larger number to our already populous town. Among the buildings erected or in process of erection, are the new high school-house, a large and elegant edifice, which, for sightly location and architectural beauty, has no rival in this vicinity; the Morse school-house; the new school-house on Cross street; the new engine house on Highland avenue, a model building; the Episcopal chapel, Union square; the Congregational church, Winter Hill; Pythian Block, Union square; Perkins Block, Washington street; and Messrs. Hill, Abbott & Co.'s new brick block, Union square. Many fine private residences have also been built. The annexation of Somerville to Boston having been defeated in the legislature, a city charter was proposed, petitioned for, and obtained; accepted by the citizens in April, 1871, and in January, 1872, Somerville will take her place among the thriving cities of the Old Bay State. Should she continue to increase in the future as in the past, the time is not very far distant when a population of 50,000 souls will be settled within her borders.

The SOMERVILLE JOURNAL, a weekly newspaper, established by W. A. Greenough, Jr., and now published by Messrs. J. A. Cummings & Co., has done much towards developing among our citizens a local interest in the affairs of the town, which could have been brought about in no other way.

West Somerville, a thriving village, has grown very rapidly since the extension of the Lexington and Arlington Railroad through that locality. A post-office will probably soon be established there. Active measures are now being taken to establish a public library in Somerville, and we hope before our next issue it will be one of the permanent institutions of the city.

The following figures show the increase in names over last year, which, multiplied by 4, indicates that the population of Somerville is over 17,000.

Number of names in 1869,	3,379

CHARLES MOORE & CO.

8 BRATTLE STREET, CAMBRIDGE,

DEALERS IN ALL KINDS OF

Kitchen Furnishing Goods

Stoves, Ranges, Furnaces, Tin Ware, Hard and Hollow Ware, Cutlery, Builders' Materials, &c., &c.

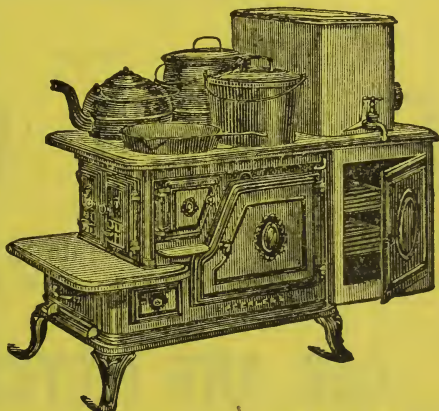

The "PEERLESS" and Magee "ADVANCE."

The best Cooking Stoves ever made, for Coal or Wood,

WITH OR WITHOUT EXTENSION TOP.

These Stoves have all the advantages of the popular Stoves in use, together with such *New Features* as justify the manufacturers in calling them the **BEST COOKING STOVES** in the market.

They are superior to all other Cooking Stoves in *Economy, Simplicity, Cleanliness, Baking, Roasting, and Beauty*. 1st. **ECONOMY**. A patented method of heating the air and conveying it through the oven, saves from *twenty to thirty per cent of fuel*. 2d. **SIMPLICITY**. They are easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling. 3d. **CLEANLINESS**. No dust escapes while shaking or dumping the grate. 4th. **BAKING**. The large oven, wherein all parts are of *equal temperature*, bakes as *evenly as a brick oven*, and that without turning the article. They bake quickly. 5th. **ROASTING**. A current of hot air constantly passing through the oven so thoroughly ventilates it, that it *roasts as well as a Tin Kitchen*. 6th. **BEAUTY**. Made of the best iron, they will not crack. Well moulded, artistically designed, and smoothly cast, they are the most *beautiful*, as well as the most *serviceable* Stoves in the market. Each Stove is **WARRANTED** to be and to do all that is claimed for it. In all the requisites of a first-class Cook Stove, they have no equal in the market.

THE "PEERLESS" AND OTHER FURNACES.

All persons in want of Furnaces are requested to call and examine our Stock. Also, as large a variety of

PARLOR, KITCHEN & OFFICE STOVES

as can be found elsewhere in the city.

The Eureka Clothes Wringer,

Which needs only to be tried to become the pet of washing-day.

We keep constantly on hand a well-assorted stock of

Plumbing Materials,

And are prepared to do all manner of work in this particular branch of the business. Also,

Tin and Sheet Iron Work of all kinds, AND ROOFING.

UNION Mutual Life Insurance Co., OF MAINE.

Directors' Office, 27 Court St., Boston, Mass.

W. H. HOLLISTER, *Secretary.*

HENRY CROCKER, *President.*

ASSETS SIX MILLION DOLLARS.

HAS BEEN IN SUCCESSFUL OPERATION 22 YEARS.

It is a purely mutual company, having no stock, and is managed by the members for their own benefit.

It furnishes insurance at the least possible cost. Every dollar of its receipts, after paying the losses and expenses, and providing the necessary reserve, is returned to its members in annual dividends.

Its dividends are made on the contribution plan, by which the surplus to be returned is apportioned among the policies in the exact ratio of their contribution thereto. These dividends are made payable at the end of the second year, and annually thereafter, and may be applied to the reduction of premiums.

It makes all policies non-forfeitable. For the surrender of a plain life policy (requiring annual payments during life), while in force, a paid up policy for an equitable amount will be given. Limited payment life policies, and all endowment policies, are paid up policies for a proportional fractional part of the face of the policy. For instance, a ten year endowment policy for \$1,000, requiring ten payments, becomes, after one payment, a paid up policy for one tenth of its face, or \$100; after two payments, two tenths, or \$200. The insured under the limited payment policies issued by this company, therefore, gets exactly the amount of insurance he pays for, whether he makes few or many payments.

Having been organized in 1849, it has been in successful operation twenty-two years, during which it has accumulated assets amounting to nearly \$6,000,000, besides paying its losses and returning large dividends to its members. Its investments earn an interest revenue more than sufficient to pay its accruing losses or its working expenses.

It is economically managed. The ratio of its expenses to its income, for the year 1870, was but 12.81 per cent. Its risks have been selected with great care, as shown by the fact that in the 21st year of its existence, 1870, the ratio of losses to income was but 14.65 per cent. In the practice of Life Insurance the expenses and losses are paid by a yearly assessment upon each premium, and the remainder of such premium, after deducting this assessment and the necessary reserve, is placed to the credit of the policy-holder, and either retained by the company, drawing compound interest, or returned to him in dividends. It follows, therefore, that that company whose expenses and losses are the least, is the most advantageous to the member. The percentages of these, as will be seen by a comparison with the statements of other companies, are not only lower than the average of all other companies, but less than those of any company of equal age.

It issues all kinds of policies at low rates of premium, grants its members the largest liberty consistent with prudence and safety, and promptly adjusts and pays its losses.

MARBLE AND GRANITE WORKS.

I would respectfully inform the public that I have

R E M O V E D

MY

MARBLE MONUMENTAL WORKS

From my old stand, cor. of Tremont and Chapman Sts., Boston, to

Wharf, 134, to 144 Main St., Cambridgeport,

Just over West Boston Bridge, which I have purchased and fitted up for the purpose of combining the GRANITE with the MARBLE business. Having superior facilities, I can now furnish every description of Marble and Granite work for Cemetery and Building purposes, on the most favorable terms. I would suggest to those intending to fit up CEMETERY LOTS, that I can furnish the Marble Monuments and the Granite Curbs more favorably than any one doing only one part, and can better harmonize the design of both.

UNION STEAM AND WATER HEATING APPARATUS,

FOR

Warming and Ventilating

PRIVATE RESIDENCES,

Public Buildings and Institutions, School Houses, Churches,
Stores, Railway Stations, &c., &c.

AS ERECTED BY

GEO. W. WALKER & CO.

Office 48 & 50 Union Street.

SALESROOM, 50, 52, and 54 FRIEND STREET,

BOSTON, MASS.

 Circulars containing a full description of the Apparatus, with Testimonials, and names of parties now using the same, may be obtained at either of the above places.

Walker's Improved French Range and Broiler.

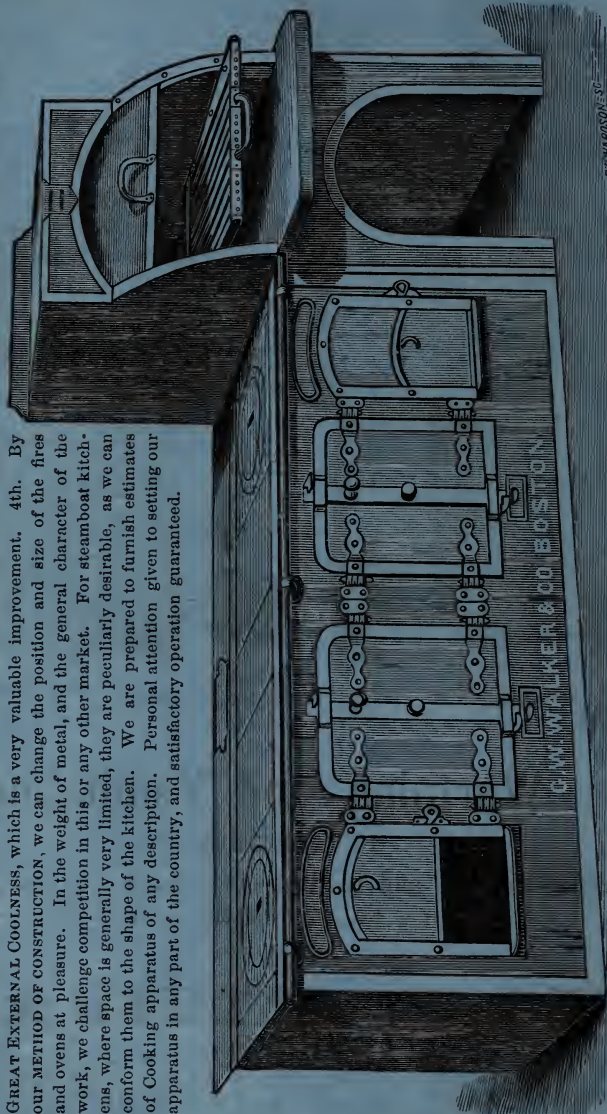

RANGE, 7 feet long.

BROILER, 26 in. long.

We desire to call the attention of those in want of cooking apparatus to our
IMPROVED FRENCH RANGES, FOR HOTELS, RESTAURANTS, &c.

The special advantages of this apparatus are, — 1st. REMARKABLE ECONOMY OF FUEL. 2d. SIMPLICITY OF MANAGEMENT. 3d.

4th. By our METHOD OF CONSTRUCTION, we can change the position and size of the fires and ovens at pleasure. In the weight of metal, and the general character of the work, we challenge competition in this or any other market. For steamboat kitchens, where space is generally very limited, they are peculiarly desirable, as we can conform them to the shape of the kitchen. We are prepared to furnish estimates of Cooking apparatus of any description. Personal attention given to setting our apparatus in any part of the country, and satisfactory operation guaranteed.

in the
United States.

THE BEST TALENT IN THE WORLD EMPLOYED.

SATISFACTION GUARANTEED TO ALL.

A SILVER MEDAL,

The Highest Prize was awarded me at the Exhibition of the
Massachusetts Charitable Mechanics Association

John H. Bufford's LITHOGRAPHIC ESTABLISHMENT, (490 Washington St.)

BOSTON.

(Notice.)

Branch Office,
No. 201
Broadway,
New York.

OUR FACILITIES for producing Lithographic work cannot
be excelled.

PRICE AS LOW IF NOT LOWER than other establishments.

IT IS A MISTAKEN IDEA of the public that I confine myself to first
class work only, for those who want a cheap class of work
can have it and better work for the same price than others,
can produce.

HAVING LATELY GREATLY INCREASED my machinery and with
the best corps of Printers and a large accrs of Artists
as any establishment in the country I am better
able than ever to fill the largest order at moder
ate figures and without delay.

I am in no way connected with any other establishment in the city my
only place of Business in Boston is 490 Washington Street corner
of Beach Street.

Promptness a Specialty.

Very Respectfully

The Patronage of John H. Bufford.
all Solicited.

MRS. J. B. PAIGE,

Inventor and Teacher of the New Method of Instruction for the

Piano-Forte and Organ.

Mrs. PAIGE has re-opened her Musical Studio at **616 Tremont Street**, where she will personally attend to pupils and the fitting of teachers. Those wishing rooms and use of Piano can be accommodated. Tuition given in private or in classes. Mrs. Paige will qualify teachers to give the "teacher's," as well as the "pupil's" course. Teachers of the old method desiring a partial course, can now obtain it by the quarter at the studio. Mrs. Paige will also explain her method, as given in the book just published, to any parties purchasing it, free of charge. For further information and terms, address, with stamp, for circular, Mrs. J. B. PAIGE, 616 TREMONT STREET, or inquire of Oliver Ditson, 277 Washington Street.

CLIFFORD, PERFUMER,

No. 40 BROMFIELD STREET.

A specialty of Perfumery and Toilet Articles.

Perfumes by the Ounce. Samples of all the kinds kept open for inspection.

A FEW FACTS CONCERNING THEM.

In order to save our customers the expense of paying for *Ground Glass Stopped Vials* (with more glass than capacity for Perfumery) and fancy labels (the getting up of which are very expensive, and always, finally, to be paid for by consumers), we put our very choicest perfumes up, in quantities to suit, in plain, but neat vials, and charge so much an ounce.

We would also invite the attention of our patrons to the fact, that when Perfumery is bought in a store, under ordinary circumstances, the different kinds cannot be inspected, since opening the vials would spoil their appearance and subsequent sale, therefore the quality of what is bought is not known until paid for; neither is there the same opportunity for choosing between *different kinds* of Perfume by parties unacquainted with the names, that we offer by exhibiting samples.

THE UNION WHEETSTONES —AND— OIL-STONES

Are Guaranteed Superior to any other,
—FOR—
SHARPENING EDGE TOOLS, KNIVES, &c.

EVERY
Housekeeper,
Carpenter,

Shoemaker,
AND
Machinist,

Should have a UNION STONE, mounted in
the Patent OIL-STONE HOLDER.

Price of Holder, 25 cents. Price of Stone, 60 cents.
Price of Stone and Holder, 75 cents.

The UNION Stones are made in various degrees of fineness and hardness, to suit all trades. A number is attached to each Stone to designate the use for which it is intended, as explained below. The same number indicates the same quality in all cases.

Nos. 24 and 36 are for cleaning castings and other rough work. 24 is a little coarser than 36.
No. 6 is for sharpening machinists' tools, and will do it as rapidly as an ordinary grindstone.
In finishing metals it is equal to the second-cut file.
No. 80 is for sharpening carpenters' and wood-workers' tools, in place of a grindstone. It is invaluable for outside jobs, where a grindstone is not available.
In finishing metals it is equal to smooth-cut files.
No. 100 is designed especially for household use and mounted on the Patent Oil-Stone Stand, will be found cheaper and superior to the family grindstone.
It will give a rough edge about right for shoe tools.
No. 120 is for whetting carpenters' and other tools, and will produce a fine edge.
It is equal to dead smooth-cut files, for fine finish.
F. F. will produce a very keen, fine edge, is an excellent razor hone, and is superior to emery sticks, paper, or crocus cloth, for polishing metals.

FOR SALE AT THE PRINCIPAL HARDWARE AND TOOL STORES.

OPINIONS OF THE PRESS.

THE WILLOW BRIDGE HOUSE, North Somerville, is one of the most cozy retreats in the world. The proprietor, Benjamin Doughty, Esq., has an interesting little family, all natural musicians, and they entertain company in the most agreeable manner. His larder is well stocked, his viands capital, and it is seldom one gets in such comfortable quarters. — *Boston Propeller*.

The Charlestown Reporter and other papers echo this sentiment.

Cars leave Lowell Depot, Boston, at 6.45, 11.30 A. M., 3, 5.15, 6.30, 7.30, 9.30, P. M., LEAVING PASSENGERS AT THE DOOR OF THE HOUSE.

 GEORGE W. SWETT, M.D. }
BOSTON, MASS.

We propose to represent all the wine makers of the United States, and to keep exclusively, and only, pure Native Wines, for Medical. Communion and Domestic purposes.

As it is almost impossible to procure Wines, Brandies, Gins and other liquors from foreign countries pure and unadulterated, and as physicians everywhere agree, that Wines are exceedingly serviceable in the regaining of health and in curing disease. we have opened a store for the purpose of selling Wines made in the United States; and over 5 000,000 gallons of Wine were made in Ohio, Indiana, Kentucky and California last year and it is made from Grapes only. No desire to cheat, for the Grapes are raised in those States as easily as we grow grass here. We have over 40 kinds, Catawba, Isabella, Claret, Sherry, Port, etc., etc., and Sherry made from the Rhubarb plant, extremely medicinal and pleasant to the taste.

Call and taste Samples, or send for our Paper and Wine List.

FIRE BRICK,

THE PIANOS
OF THE

United Piano Makers,

Which have been so unanimously indorsed by the critics and musical fraternity of Boston, will, on account of their intrinsic merit and undoubted superiority, be exclusively used in CARLYLE PETERSILEAS MUSIC SCHOOL.

The astonishing popularity of these instruments is due to their sympathetic, rich, mellow and brilliant tones, and to their superior and careful manufacture. In all that comprises a first-class instrument, such as all would feel proud of possessing, the UNITED PIANO MAKERS' are unsurpassed by any in the market. A careful and critical examination of these instruments is respectfully solicited at the Warerooms.
